G20-One Earth, One Family, One Future

Library Professionals are very much fascinated and influenced with new nomenclature, trends, buzzing concepts like IOT, AI, Swarm Intelligence, Green Library, etc. which are well accepted and applied in western libraries but still a distant dream in Indian Scenario. Though it doesn't mean that professionals should not aim for current developments and collectively work for application of emerging and cutting-edge technologies but inevitably should assess, monitor, observe ground realities of Indian library system and emphasize on improving the current scenario with use of open access platforms and certainly imbibe the current developments.

The whole nation is blissfully celebrating the pride of organizing G20 Summit with pious essence of One Earth, One Family, One Future. It is undoubtedly eternally truth that India being a vibrant, holy, spiritual nation, birth nation of education, Ayurveda, Peace and Non Violence sustaining and carrying forward the gem of democracy in terms of secularism, sovereignty, Republic and Judiciary, is a model state for the world and connecting the glorious past with contemporary advancement for the welfare of citizens.

Libraries in India, irrespective of their nature as embracing and imbibing the new trends and technologies, fulfilling the users demands with available resources, informing and enabling users about open access resources usage and thus justifying their role of social institution.

The present issue overtly cover the multidimensional approach, activity of varied categories of libraries in terms of their collection, services, users needs and satisfaction and the latest offerings, initiatives of libraries across India.

The research papers deals with One Nation One Subscription Policy, Bibliometric Analysis, Audio-Visual Libraries of Doordarshan, Digital Initiative of government of India, Scientometric Exploration of Indian Institutes of Science Education and Research(IISERs), Anti-plagiarism method used by central university of Uttar Pradesh, Parameters for collection development

policy of NCERT, Role of libraries in promoting learning Management Systems, Opportunities and Challenges of using ICT in Teaching and Awareness and usage of electronic resources by Nigerian University.

Thus the papers covers multiple and diverse areas of libraries and documentation centres.
